COURSE PURPOSE

By definition, a chaplain is simply a "minister in the workplace" which performs a secular purpose. These chaplains are clergy who usually serve in specialized settings such as first responder (law enforcement, EMS, military, etc.) and community (district attorney, schools, hospital, hospice, prisons, corrections, corporations, etc). As specially trained clergy, Chaplains seek to encourage others while ministering to the whole person, addressing a person's spiritual, physical and emotional needs. Chaplaincy is a bridge where both a secular and spiritual purpose is served within an organization and is a highly specialized ministry. Chaplains operate at the cutting edge where ministry and social structures intersect. This course will co-certify you as an Ambassador for the National Initiative of **"Not One More Child"** (NOMC) sponsored by The Joyful Child Foundation and radKIDS to stop Child Abduction and Sexual Molestation of our nation's children.
